

My name's Wojciech. I'm a senior manager. I work in OLPOL Company. I'm responsible for sale and buy products. My job doesn't involve travelling though I sometimes go to business meetings.

I start my work at 7 a.m. and finish at 6 p.m. I began work, turn on computer and read mails, next I start planning the day. During the day I call to my general clients and check the financial situation. After work I go home.
